President David Brandes called the meeting to order at 10:30 a.m.

Announcements

Dave announced that former member James Albert “Al” Clarke had recently passed away and expressed appreciation for his service.

Laura Brandes distributed new TMN pamphlets to all members and encouraged everyone to distribute them around the county in as many places as possible. January is new intern recruiting month. There is also to be an article in *The Facts* newspaper in January about Texas Master Naturalists which will also assist in these recruiting efforts. The first 2011 new intern training classes will begin in early February.

Training Director

Laura Brandes announced and presented a shirt and certificate to **New TMN Certification – Charlie Clements.**

Laura revealed that over the past two years there have been 19 interns and all but 1 of them have attained TMN Certification.

She said there are 3 interns with training carrying over into 2011 and there are currently 5 or 6 prospects for new internship.

Next year it is anticipated that our COT chapter should reach 100,000 volunteer hours. This will be quite an outstanding accomplishment.

AgriLife Advisor

Corrie Bowen has informed COT that he will now be serving as the chapter advisor. Dave said that Corrie has a broad background and we appreciate his assistance.

January General Member Meeting, 01-12-11

Carolyn Schlein and Barbara Burkhardt communicated that the January meeting will be held at the **Brazosport Museum of Natural Science**. There will be several (5 or 6) Advanced Training speakers on the subject of "**Seashells**".

Carolyn urged all members to help advise fellow members of the different meeting location.

Christmas Bird Counts

Tom Morris reviewed the importance of the counts and the value of assistance from members, even the inexperienced. Tom and Jim Renfro are Area Leaders and Tom circulated a sign-up form for those who can participate in these counts:

San Bernard – this Friday, 12/10/10

Freeport – Sunday, 12/19/10

Brazoria – Saturday, 01/01/11

Barbara Burkhardt offered additional motivation for volunteers; more eyes means more birds spotted. Normally 60-80 birds are recorded by each individual with the total area count being over 200 birds.

Kathleen Murray offered access to Bryan Beach via private property that she has permission to utilize.

The current members and Advance Training Chair, the Wesselman's, are moving to North Dakota. Barbara Burkhardt, incoming President asked for an interested volunteer to please contact her at home or by e-mail.

Thanks to member Candace Novak who volunteered at the meeting.
